

ZAHEEN ABRAR

H-13, Kobi faruk Sarani road, Nikunja-2, Dhaka, Bangladesh
+880 1971222447 — zaheen.abrar.1234@gmail.com  Git-Hub  LinkedIn

OBJECTIVE

Adaptable Computer Science student specializing in software development. Enthusiastic about system design and clean code, looking to bring strong analytical thinking and backend engineering skills to a collaborative, high-impact team.

EDUCATION

Bachelor of Science in Computer Science and Engineering American International University-Bangladesh (AIUB), Dhaka	September 2022 – Present CGPA: 3.67 / 4.00
A-Levels Glenrich International School, Dhaka, Bangladesh	June 2020 – June 2022
O-Levels Glenrich International School, Dhaka, Bangladesh	2020

TECHNICAL SKILLS

Programming Languages	C++, C#, Python, Java, PHP, JavaScript
Web Technologies	HTML, CSS, JavaScript, TypeScript, Tailwind CSS, ASP.NET Core MVC
Databases	MySQL, PostgreSQL
Frameworks & Tools	Next.js, NestJS, TypeORM, Entity Framework Core, RStudio, XAMPP

PROJECTS

Hospital Management System — “The Balaka Pharmacy”

NestJS, TypeScript, PostgreSQL, TypeORM, Multer, Class-Validator

- Developed a RESTful backend service in **NestJS** and **TypeScript**, handling core workflows across patient, doctor, and admin modules.
- Enforced data integrity and error handling using **Class-Validator** DTOs, integrated with **PostgreSQL** and **TypeORM** for relational database management.
- Configured **Multer** file storage handling to securely manage medical records and document uploads.

Hotel Reservation System — “The Luxor”

PHP, MySQL, HTML5, CSS3, JavaScript

- Built a full-stack hotel management web app featuring guest registration, room bookings, and an admin dashboard for schedule and financial management.
- Developed a responsive 7+ page front-end backed by a secure PHP/MySQL database architecture using prepared statements to prevent security vulnerabilities.

Train Booking System — “LocoHunt”

Java, Java Swing, MySQL

- Developed a desktop-based train ticket booking system enabling users to search trains, reserve seats, manage passenger details, and generate booking records.
- Implemented user authentication, CRUD operations, and database connectivity using MySQL, providing efficient ticket management through a graphical user interface.

ADDITIONAL INFORMATION

Soft Skills	Communication, Collaboration, Time Management
Languages	English (Professional), Bangla (Native), Hindi (Conversational)
